SECURITY INFORMATION

Approved For Release 2001/08/30 : CIA-RDP78-03985A000900170002-9

*Office Memorandum* • UNITED STATES GOVERNMENT  
~~CONFIDENTIAL~~

TO : Chief, Administrative Staff, PSO

DATE: APR 1 1953

FROM : Acting Chief, Transportation Division, PSO

SUBJECT: Regrading Classified Documents.

Reference: [REDACTED] memorandum 4 March 1953, same subject.

1. The messages referred to in the basic communication being TWX would normally be filed in the respective cargo folder which is classified "Secret."

2. Inasmuch as a "Top Secret" record of these documents does not exist and there is no assurance that they were directed to this office, it would be impracticable to check each cargo folder in an attempt to regrade them because of folder classification.

3. In the event the messages were not graded as high as "Secret", they would be treated as secret anyway because that is the normal classification of the Cargo folders.

4. It is therefore recommended that this file be closed without further action in so far as it pertains to Transportation activities.
